

RICHARD ELSON

Jr VFX Producer

Established as an Editor for over 20 years, Richard is very at home in the world of VFX and post-production. With an acute eye for detail, analytical mindset and organisational skills it was easy to transition from VFX Editor to VFX Production Manager. Earning his stripes on heavy VFX series, wrangling lockdown challenges, global infrastructures and internal politics; he is now ready to step up to the role of Jr VFX Producer. Fascinated by the advances in technology, Richard has great aptitude for finding efficiencies albeit automating databases or using AI. Hard-working, ambition wrapped up with a fantastic sense of humour.
